ABOUT US

We are a team of national leading experts in care consultancy with over 150 years of experience supporting services such as Domiciliary Care, Residential Care, Supported Living, Children's Services and Care Agencies. We work openly and transparently with our customers, stakeholders and within our internal team. We believe business partners who trust one another spend less time protecting themselves and more time working on things that will make their business successful.

We celebrate diversity and recruit and retain a workforce of people with different characteristics who are employed—those of different genders, races, cultures, political views, and religions. A diverse workforce is more likely to understand our customers' needs and develop ideas to fulfil them. Diversity in the workplace will also increase employee morale and instil a desire to be more effective and work more efficiently.

Your Journey Starts With Team Care

SUPPORT FOR ALL

WE HAVE WORKED WITH OVER 20 CARE PROVIDERS

Over the span of January to February, we collaborated with more than 20 care providers, extending our reach from Scotland to the southwest of England.

8 TENDERS COMPLETED IN FEBRUARY ALONE

We have successfully supported care providers to submit 8 tenders in February alone. We look to continue this growth and continue to achieve more.

MANDATORY AND SPECIALIST TRAINING AVAILABLE

Explore our diverse training services featuring mandatory and specialized CPD-accredited courses. From safeguarding adults and the Mental Capacity Act (MCA/Dols) to Autism, Learning Disability, Medication management, and transferable Positive Behavior Support (PBS), we offer comprehensive programs. Our expertise ensures your team gains essential skills efficiently, contributing to a knowledgeable and adept workforce.

What our providers have said:

"They worked within tight timeframes to not only identify where the problem areas were but also to devise an action plan with clear and concise instructions to follow to improve"

"Team Care is a creative leader with many skills; they can lead the team, and their approach is inclusive. They recognise people's strengths and areas of development and ensure that this is implemented into team strategies. Team Care Consultants recognise where things need to be fixed, creating better working practices"

"Thank you for the insightful care agency setup consultation. Your expertise and guidance were valuable in understanding the intricacies of establishing our agency. The comprehensive approach to regulatory compliance and operational efficiency was particularly beneficial. I appreciate your responsiveness and the clarity in addressing our queries. Moving forward, it would be helpful to delve deeper into marketing strategies specific to the healthcare industry. Overall, a positive experience, and I look forward to continued collaboration."

"I had 2 days audit done with Sarah this week, she is an absolute diamond, she talked me through areas I lacked and explained ways I can improve them to ensure I can show my company is well led. Sarah also helped me get in touch with commissioners in hope to build relationships with those local to me"

Our Team

We have a deep understanding and industry expertise across a comprehensive range of disciplines in social care. Our team has a broad geographical reach, and we are passionate about rising to our client's challenges.

We build their capabilities and leadership skills at every level and at every opportunity. We do this to help make internal support, resolve fundamental issues, and reach practical recommendations.

Our team has a combined 100-plus years of experience in the care sector!
